

1.	Identification of the Substance/Preparation & Company					
-	Name: Pro-Haze Fluid					
	Synonyms: Techno-Haze Fluid					
	Supplied by:	Martin Manufact Belvoir Way, Fairfield Industri Louth, Lincolnshire LN	Fax: +44 (0) 1507 601956 al Estate,			
2. Composition/Information on Ingredients						
	Contains food grade glycols, polyglycols and de-mineralised water.					
	Contains no substances in Part 1 of the Approved Supply List, or with a maximum exposure limit (MEL) specified in Schedule 1 of COSHH.					
	Contains mono	ains monopropylene glycol, for which an occupational exposure standard has been set				
3.						
	No significant	hazard to man or env	vironment under normal conditions of handling and use.			
	Ingestion: low toxicity.					
	Eye/skin: low	toxicity				
	Inhalation: low concentration of hazardous substances in vapour. Undiluted vapour should not be inhaled. ( <b>Note:</b> The concentration of smoke components in the final product is below the OES under normal operating conditions)					
4.	First Aid Measures					
Expo	osure Route	Symptom	Treatment			
	Inhalation	Mild irritation of nose & throat	Remove from exposure, rest and keep warm. In severe cases, or if recovery is not rapid or complete, seek medical attention			
	Skin Contact	Mild irritation	Drench the skin with plenty of water. Remove contaminated clothing and wash before re-use. If large areas of the skin are damaged or if irritation persists seek medical attention			
	Eye Contact	Mild irritation	Irrigate thoroughly with water for at least 10 minutes. Obtain medical attention			
	Ingestion	Mild irritation of gastro-intestinal tract	Wash out mouth with water. Do not induce vomiting. If patient is conscious, give water to drink. If patient feels unwell seek medical attention.			
5.	Fire Fighting Measures					
	Suitable Extinguishers		Alcohol-resistant or all-purpose-type foam. Use carbon dioxide or dry powder for small fires only			
	Unsuitable Extinguishers Hazardous Combustion Products Special Equipment for fire Fighting		Do not direct a solid stream of water or foam into hot burning pools; as this may cause frothing and increase the intensity of a fire			
			Oxides of carbon including aldehydes			
			Self contained breathing apparatus			

Revision No.: BDate: January 2005Replaces SDS No.:Date:

(				
6.	Accidental Release Measure			
	Safety Precautions	Wear appropriate PPE when handling - see section 8		
	Environmental Precautions	Prevent entry into drains and water courses		
	Clean up Procedure	Bund or absorb material with sand, earth or other suitable absorbent material. If possible, transfer to a salvage tank, otherwise absorb residues and place in suitable labelled containers and hold for waste disposal - see section 13		
7.	Handling and Storage			
	Safe Handling	Avoid prolonged skin contact. Avoid contact with eyes. Ensure good general ventilation of area. Avoid creating spray. Do not breathe undiluted vapour		
	Storage	Store in original closed containers		
		Store at ambient temperature		
		Store away from materials listed in section 10		
8.	Exposure Controls and Personal Protection			
	Respiratory	Type approved RPE for organic vapours and mists, if required		
	Hand	PVC coated or rubber gloves		
	Eye	Goggles or face shield		
	Skin	Overalls and boots		
	Hygiene Measures	Always wash thoroughly after handling chemicals		
9.	Physical and Chemical Properties			
	Appearance:	Colourless Liquid		
	Odour:	Mild		
	рН	Neutral		
	Boiling Point/Range:	101.6 - 201.6 °C		
	Melting Point/Range:	< -20 °C		
	Flash Point:	> 78 °C (test flame extinguished at 78 °C)		
	Flammability Limits:	2.9 - 18.1 v/v (estimated)		
	Vapour Pressure:	2.67 kPa at 20°C		
	Relative density:	1.050 at 20 °C/20 °C		
	Solubility in water:	Completely miscible		

Revision No.: BDate: January 2005Replaces SDS No.:Date:

10.	Stability and Reactivity				
	Stability		Stable in normal conditions		
	Known hazardous reactions		Possibility of explosive decomposition if combined with strong acids or bases at elevated temperatures		
	Conditions to avoid		Elevated temperatures		
	Materials to avoid		Strong acids and bases; strong oxidisers		
	Hazardous decomposition products		Oxides of carbon, including aldehydes		
11.	Toxicological Information				
	OES for monopropylene glycol set at 150 ppm (total vapour and particulates) for 8-hour TWA, and 10 mg/m <sup>3</sup> (particulates) for 15-minute STEL.				
	LD <sub>50</sub> for monopropylene glycol: 21000 - 33700 mg/kg oral - rat, >10000 mg/kg skin - rabbit.				
	May cause slight irritation to skin, eyes and mucous membranes. Large doses may produce adverse effects on liver, kidneys and central nervous system.				
	No evidence in developmental toxicity studies for either embryotoxic or teratogenic effects.				
12.	Ecological Information				
	Mobility	Liquid with low mobility in soil	volatility, soluble in water, predicted to have high		
	Degradability	The preparation i	s largely biodegradable:		
		$_{2}/g$ ; ThOD = 1.68 gO <sub>2</sub> /g; COD = 1.63 gO <sub>2</sub> /g 86%			
	Accumulation	Low			
	Short and long- term effects	$LC_{50}$ , fathead minnow = 4600 - 54900 mg/l $EC_{50}$ , Daphnia magna = 4850 - 34400 mg/l			
	Other				
13.	Disposal Considerations				
	Substance	N a	Via an authorised waste disposal contractor to an approved waste disposal site, observing all local and national regulations		
	Container		As for substance. Used containers must not be cut up or bunctured until completely purged of product residues		
14.	. Transport Information				
	No special precautions for transport				

### 15. Regulatory Information

Supply label details		In accordance with CHIP 2, Regulation 9.
Label Name		Pro-Haze
Symbol	)	
Risk phrases	}	No risk or safety phrases stipulated
	ノ	

Safety phrases E.E.C. Number

Use of this material may be governed by the following regulations:

COSHH, HSWA, MHSW

Users are advised to consult these regulations for further information. The information contained in this data sheet does not constitute an assessment of workplace risk as required by other health and safety legislation.

### **16.** Other Information

No special training is required for handling this preparation other than normal precautions for safe handling of chemicals

This material is usually used for the production of synthetic smoke in an appropriate JEM smoke- machine. The concentration of smoke components is below the OES under normal operating conditions.

It must not be used for any other purpose, or in any other equipment

Further details may be available on request from the supplier, whose address and telephone number are given in section 1.
